Sales & Export Manager

## Sector : Technical Raised Floors and Terraces on BUZON Screwjack Pedestals.

**Activity : BUZON PEDESTAL INTERNATIONAL S.A.** is the leading manufacturer of "Buzon DPH®" Screwjack Pedestals, which are made of polypropylene, and can be adjusted millimetre by millimetre from 35 to 620 mm.

These pedestals can bear loads of over 1000 kg/pedestal, and are specially designed for the construction of roof terraces, pedestrian area's, walkways, roof gardens, platforms, elevated technical platforms, inverted roof, etc., and can be used with any type of decking material, such as natural stone, cement, granite, wooden tiles or slates, and industrial gratings.

The slope corrector "PH5" and the pedestal "DPH5" have been specially developed to automatically compensate the slope of a roof from 0 to 5 % (or 0 to 5 cm), and to ensure a perfectly level terrace. **BUZON PEDESTAL** can resist to UV, and to temperature from -20° C to 120° C.

**BUZON PEDESTAL** introduces this year a New Composite Wood Decking System for terraces with a new and unique "CLIPS" system without any screw (Clips made of the raw material POM - acetate copolymer). The "CLIPS" system is placed on top of the new Buzon DPH® screwjack pedestals with a slope corrector from 0 to 5 % and adjustable from 35 to 620 mm.
